

Assignment 3.1 – Best Practices Class Discussion

Note: this assignment is due before class on Monday Oct. 25!

You will be assigned either Wilson et al. 2017 or Stewart et al. 2017. Complete the instructions for your assigned paper below:

For Wilson et al. 2017:

- a. Write a 200-word summary of the paper.
- b. Come up with answers to the following questions (to be used for the discussion):
 - b.1. What are the ‘good-enough’ practices suggested by Wilson et al.?
 - b.2. What are the good-enough practices that would be reasonable to implement during this course?

For Stewart et al. 2017:

- a. Write a 200-word summary of the paper.
- b. Come up with answers to the following questions (to be used for the discussion):
 - b.1. What are good reasons to make science open, transparent, and reproducible?
 - b.2. What are some tools that Stewart et al. suggest might be helpful to make science more open?

Submit your summary and answers to Canvas and also bring these to class ready to discuss!
